Agenda:

1. Preliminaries

The minutes from the previous session were approved.

The Chair informed the Working Group that the first batch of minutes and the Terms of Reference have now been published.

2. Revised Output Slides

The Chair thanked the subgroups for their efforts in pulling together revised outputs, which have now been shared with the other working groups. In addition, the progress of the other working groups was discussed. Working Group 1 will review the other working groups' 'strawperson' solutions and assess them against the identified needs.

3. Prioritisation of Needs

The Group discussed the prioritisation 'matrix' suggested for applying an objective prioritisation to all consumer and SME cash needs. Some subgroups have applied initial prioritisation to their needs and

the methodology for this was discussed. Changes were suggested to the original prioritisation framework and it was tested against an example of consumer need.

The Group discussed the approach to apply this framework to the list of needs over the next few days and agreed to a joined-up approach coordinated by the Secretariat.

4. Consumer/SME Roundtable

The Chair invited the working group to express their expectations for the roundtable (scheduled for 4 December). The Group agreed that they would like their key consumer/SME needs to be presented for validation, but the primary purpose of the session for Working Group 1 is for feedback on what consumers/SMEs feel are their needs.

5. Steering Group Meeting

The Chair invited the working group to share points to be raised at the December Steering Group Meeting offline.

6. AOB

None.
